

DANIEL MARKUSSON

+1 (647) 339-0777 | markussondan@gmail.com | www.danielmarkusson.net | [in](#) LinkedIn | [GH](#) GitHub |
Toronto, Canada

OBJECTIVE

Full-stack developer with hands-on experience in AI research, robotics, and personal finance applications. Proven ability to lead multidisciplinary teams, delivering complex projects to successful outcomes.

EDUCATION

- **University of Toronto** 2029 (expected)
Bachelor of Science in Computer Science Toronto, Canada
- **Crestwood Preparatory College** 2025
Secondary Education Toronto, Canada

AWARDS

AP Scholar with Honours Award · Ontario Scholar Certificate · Diplôme d'Études en Langue Français (B2) · Academic Achievement Award

EXPERIENCE

- **Royal Bank of Canada** [\[🌐\]](#) 2025
Innovation Developer Intern (return offer from previous term) Toronto, Canada
 - Built a full-stack platform for Apollo SREs that cut proxy deployment from 9h to 90m (83% faster), saving 2,200+ engineer hours annually.
 - Delivered React.js front-end (RIG), Go/PostgreSQL backend for 6,000+ Apigee proxies; ensured scalability with Jest test suites.
 - Awarded 'most innovative solution'
- **Royal Bank of Canada** [\[🌐\]](#) 2024
Innovation Developer Intern (1 of 40 selected from 1,100+ applicants) Toronto, Canada
 - Built an onboarding platform reducing setup by 40+ hours per hire; modernized developer portal UI with RBC's design framework.
 - Partnered with DevOps and designers to refine portal functionality; presented results to CTO and senior execs.
- **Vexo Labs** [\[🌐\]](#) 2025
Co-Founder & Lead Developer Toronto, Canada
 - Shipped full-stack React Native personal-finance app with Firebase auth, Plaid bank integration, and AI-driven financial insights.
 - Built modular TypeScript/RN-SVG components; led product direction across UI/UX, investor pitches, and roadmap; utilized agile practices.
 - Ensured reliability via Jest + React Testing Library test suite.

PROJECTS

- **A Minimal Approach to Fake News Detection** [\[🌐\]](#) 2024
Research Paper [\[📄\]](#)
 - Published preprint proposing lightweight ML model (XGBoost), achieving 71% classification accuracy on engineered text features.
 - Built and processed dataset with pandas; tuned models via gradient boosting and evaluated with ROC/confusion matrices.
 - Presented findings at Polygence Symposium, demonstrating strong research communication and academic writing skills.
- **Advanced Robotics Club** [\[🌐\]](#) 2022–2025
Founder and Captain of Team Canada [\[📄\]](#)
 - Founded and scaled club; secured \$5,000 worth of sponsorships and recruited 12 active members through outreach and mentorship.
 - Led Canada's team twice at [RoboCup Junior Lightweight Division](#) in 2023 (France) & 2025 (Brazil); designed autonomous soccer robots.
 - Directed hardware/software/media subteams; built navigation and computer vision systems; interfaced with low-level components; documented codebase on GitHub for continuity.

SKILLS

Programming Languages: Python, C++, JavaScript/TypeScript (React.js & React Native), Java, Go
Frameworks & Tools: Jest, GitHub, Pandas, XGBoost, RBC RIG, Google Apigee, Backstage, Firebase
Misc: Machine Learning (gradient boosting, feature engineering), Full-stack development, DevOps collaboration, Academic publishing, Agile framework

COMMUNITY

Model United Nations Club: Captain · **North York Lions Basketball Team:** Captain · **Various Musical Groups:** Drummer & Bassist · **Crestwood Preparatory College Camping Trip:** Counsellor
